“Living Beautifully is a layered way of life for me. My daily spaces have a huge impact. I flourish in minimalist comfortable interiors that have layered organic touches. I also love to travel to interesting, well-designed spaces to be inspired. I blossom when I fuel my body with healthy tasty options, meditate and exercise regularly. Feeling my best is essential. But most of all, treating others and the ones I love with respect, honesty and kindness is a vital part of my Living Beautifully.”
